The sacred vocal music

The sacred choral works of Felix Mendelssohn Bartholdy span nearly the composer’s entire career, and encompass an especially rich cross section of his music, beginning with the precious student works of the 1820s and culminating in the magisterial oratorio Elijah, premiered in 1846 and published in full score only weeks before his death in November 1847.

All told, Mendelssohn completed well over 50 sacred compositions, among them a cappella motets, cantatas, psalm settings, occasional liturgical pieces, and oratorios. The oeuvre comprises settings of German texts for the Protestant church, Latin settings for the Catholic church, a few works for the Anglican service, and a setting of Psalm 100 for the Temple in Hamburg. Much of Mendelssohn’s sacred music was first heard not in the church but in the concert hall, and at the large, popular music festivals he conducted in Germany and England during the 1830s and 1840s.

The completion of the Carus edition culminates more than two decades of effort to make available to the public critical performing editions of the complete sacred music, including 38 works published for the first time.

Mendelssohn’s sacred music is generally thought to reflect the dominant influence of J. S. Bach and Handel, and Mendelssohn’s efforts to preserve the heritage of their music through a stylistic assimilation into his music. In the case of Bach, of course, Mendelssohn’s performance of the St. Matthew Passion in 1829 counts as the watershed event that launched the nineteenth-century Bach revival, a movement that found expression in a series of student cantatas Mendelssohn composed (still relatively unknown) and later, in the oratorios St. Paul and Elijah. In the case of Handel, Mendelssohn was a tireless advocate for performances of Handel’s oratorios, and indeed was active as an editor of Handel’s music. The Handelian choral style found a new resonance in Mendelssohn’s psalm settings for the concert hall and in his own oratorios as well. But if Bach and Handel loom as the two major influences on Mendelssohn’s mature style, his choral music reveals a variety of other models, and testifies to the full extent of the composer’s historical interests. Thus, the posthumously published Tu es Petrus (1827) betrays its origins in the polyphony of Palestrina; the sixteen-voice motet Hora est (1828) draws on the polychoral tradition of the Baroque; and the lush setting of the sequence Laudae Sion (1846) is indebted to Cherubini and other Italian masters.

The Carus editions in the Mendelssohn series are provided with probing historical and analytical prefaces, critical reports, and selected facsimiles of primary sources. Each edition is based on manuscript and printed sources from Mendelssohn’s time, and opens a window into the work of one of the most renowned German composers.

R. Larry Todd

Mendelssohn was a highly self-critical composer who constantly polished his music. Once a work had been premiered, he almost always altered it again for publication, as can be seen in the two great oratorios. Many of his pieces were revised for publication only to be left unpublished (e.g. the psalm Richt mich, Gott) or were never intended for publication in the first place. In such cases, decisions have to be made regarding conflicting versions and ambiguous readings. The fact that there is still no complete catalog of Mendelssohn’s music and its sources makes it difficult to complete the editorial work. However, thanks to the scholarly assistance of R. Larry Todd, who has edited a great many of the works himself, we were able to enlist the editorial services of authoritative Mendelssohn scholars from Europe and the United States.

Unlike many earlier prints, the Stuttgart Mendelssohn Editions do not make use of the old Gesamtausgabe volumes published in the 1870s without any indication of the sources consulted. Nor do we make use of original prints issued posthumously in the 19th century, preferring instead only those that the composer himself saw into print. Thus, our editions of St. Paul, Lobgesang, and the five great psalm settings, among others, are the first scholarly, critical editions of these famous works altogether. In all other cases, our editions proceed directly from the composer’s autograph scores. Our edition of Laudae Sion, for example, is the first to reproduce the version heard at the premiere, whereas until now the work has invariably been performed from the original print, which only appeared after Mendelssohn’s death. Another posthumous work, the popular Three Psalms (op. 78), likewise appears for the first time in a print based on the autograph scores, so that all versions of this piece are now available. As might be expected, our first publications from the juvenilia in particular brought many new things to light, including the chorale cantatas, the Magnificat, and Hora est.

Apart from a few minor pieces published solely as choral sheets, each volume in the Stuttgart Mendelssohn Edition contains a foreword and a critical report. The volumes ... performance material and an internationally recognized CD is available with Frieder Bernius and the Kammerchor Stuttgart.

The three oratorios

Few nineteenth-century oratorios have attained such a firm place in the musical life of our times as those of Mendelssohn. With their timeless biblical settings, they combine elements of romanticism with the mighty choral style of Handel and the meditative chorales of Bach.

Mendelssohn composed his first oratorio Paulus under the impression of his own revival of J. S. Bach’s St. Matthew Passion in 1829. Robert Schuman praised the “inextinguishable color of the instrumentation” and the “brilliant play with all the forms of composition.” He described it as a “jewel of the present.”

Mendelssohn left his third oratorio incomplete at the time of his early death in 1847. A fragment of some twenty minutes’ duration survives with two fully orchestrated sections: “The Birth of Christ” and “The Suffering of Christ.” Not only do they represent a valuable addition to any Christmas or Passion concert, they can also be used in church services.

Mendelssohn to his librettist
In honor of the joint commemorative years of Handel and Mendelssohn 2009, Mendelssohn’s arrangement of Handel’s *Acis and Galatea* is published for the first time. This setting of the love story from Greek mythology was among Handel’s most frequently performed works during the lifetime of the master. Through the addition of various wind instruments Mendelssohn achieved an enormously colorful orchestral sound which effectively illustrated the dramatic plot, and even dramatized it in some cases. The entirely special interpretation by the barely twenty-year-old composer is based on the text of a hitherto unknown German translation of the original text.

The five psalms

Mendelssohn was inspired by psalm texts throughout his entire career. Besides pieces for a cappella chorus, he left behind five large-scale orchestral psalm settings. Schumann, writing in 1837, regarded Psalm 42 as “the highest pinnacle ever reached by Mendelssohn the church composer or, indeed, by more recent church music altogether.” One of the most impressive of these pieces is surely the monumental Psalm 114, written throughout for eight-part chorus without solo voices.

The eight chorale cantatas

As early as his apprentice years with Zelter, Mendelssohn was often occupied with chorale settings, and his interest in the Lutheran hymn even remained unabated throughout his symphonies and oratorios. His intensive study of the works of Bach, occasioned by his revival of the *St. Matthew Passion*, led him to compose a series of cantatas on well-known hymn tunes for chorus, instruments and sometimes solo voices. These are a welcome addition, not only for church services.

Composed for England in 1840, in his Three Sacred Songs for alto, chorus and organ, op. 96 (see p. 27). Mendelssohn sought to match the inflection of the English anthem. Three years later he gave the work what he called an "orchestral garb" and added a fugue. This version has been published posthumously as “Anthem op. 96.”

The Three Motets, op. 39, were composed in response to a visit to the Church of Trinità dei Monti in Rome. Mendelssohn wrote to his parents on 20 December 1830: “The French nuns sing there, and it is lovely beyond compare. ... Now, knowing that one is not allowed to see the singers, I made a strange resolution to compose something for their voices, of which I took quite ample notice.”

The Three Motets, op. 39, were composed in response to a visit to the Church of Trinità dei Monti in Rome. Mendelssohn wrote to his parents on 20 December 1830: “The French nuns sing there, and it is lovely beyond compare. ... Now, knowing that one is not allowed to see the singers, I made a strange resolution to compose something for their voices, of which I took quite ample notice.”

These three expressive psalm settings that Mendelssohn wrote in 1843–44 for the Berlin Cathedral Choir appear in this collective volume with an appendix containing the first version of Psalms 2 and the revised version of Psalm 43, both of which are published here for the first time. The latter is an interesting discovery. Mendelssohn had prepared it for publication, but it was not printed before his death. For unexplained reasons only the first versions were later published.

Felix Mendelssohn Bartholdy

Music for choir and organ

Movements from oratorios, cantatas and other work with orchestral accompaniment in arrangements for choir and organ. 2.030

The three oratorios, the choral cantatas, the large psalm settings, Lobgesang and other sacred works of Mendelssohn with orchestra are prized, not least, for the variety and beauty of their choral writing. Already in the 19th century it was standard practice to arrange suitable movements from larger works for choir and organ. The new choral collection opens this possibility to choirs of today with a rich variety of movements for use in services and concert. The choruses selected for this edition employ biblical texts; it contains works based on chorales and free compositions in many styles, mostly for four-part mixed choir.

Choral collections Brahms Mendelssohn · Schubert

Smaller sacred works for service and concert for mixed choir 2.081

In the 18th century a collection with such a wide range and so richly endowed would have been called “A little musical chest of treasures,” a “cabinet,” or something similar […] It would be best to form your own picture of the wealth of this choral collection, which is made more accessible through informative registers. This “little musical chest of treasures” is highly recommended.

The sacred vocal music · Complete recording

It has set high standards and in the meantime the comprehensive, award winning series of CDs featuring the sacred choral music of Felix Mendelssohn Bartholdy in interpretations by the Kammerchor Stuttgart under Frieder Bernius have made the entire breadth and depth of Mendelssohn's church music known, beginning with the well-known, beloved works and venturing beyond these with several world premiere recordings – ranging from youthful works to Christus, his unfinished oratorio.

“Through choral technique as well as through interpretatively convincing renditions, Bernius has contributed considerably to correcting the one-sided picture of Mendelssohn.”  

nmz

Frieder Bernius is one of the most versatile among German conductors. His aim is to concentrate on rendering performances in original, historical style. In addition to conducting the Kammerchor Stuttgart, the Barockorchester Stuttgart and the Klavinsche Philharmonie Stuttgart, all of which he has founded, Bernius appears as a guest conductor of numerous important national and international orchestras, and concert tours have taken him to all of the major international music festivals. He has made some 80 recordings to date, 25 of which have been awarded prestigious prizes. Since 1987 he has been the artistic director of the Internationale Festtage Alter Musik in Stuttgart. The name of this festival was changed to Stuttgart Barock in 2004.

The Kammerchor Stuttgart, internationally one of the best and most well known vocal ensembles, has participated in all the important European choral festivals and has often been invited to appear in concerts in the USA, Canada, Israel, Australia and Southeast Asia. The secret to their artistic success lies in the uniformity of sound – the “famous sound” so often praised by the international press.

IX. Herr Gott, dich loben wir

Kammerchor Stuttgart / Deutsche Kammerphilharmonie Bremen
Frieder Bernius
83.217 (in preparation)

This recording once again documents the diversity of Mendelssohn’s church music. Above all, his setting of Tu es Petrus and the chorale arrangement of Herr Gott, dich loben wir demonstrate Mendelssohn’s orientation towards earlier principles of compositional techniques.

X. Lobgesang · Symphonie-Kantate op. 52
Kammerchor Stuttgart / Deutsche Kammerphilharmonie Bremen
Frieder Bernius
83.213 (in preparation)

XI. Paulus / St. Paul op. 36
Maria Cristina Kiehr / Werner Güra Michael Volle
Kammerchor Stuttgart / Deutsche Kammerphilharmonie Bremen
Frieder Bernius 83.214 (2 SACDs)

Mendelssohn composed his first oratorio, St. Paul, under the impression of his own revival of Bach’s St. Matthew Passion (1829). During Mendelssohn’s lifetime St. Paul was one of his most popular works, which received numerous performances throughout Europe. Robert Schumann praised it as a “jewel of the present.”

XII. Elias / Elijah op. 70
Letizia Scherrer / Renée Morloc / Werner Güra / Michael Volle
Kammerchor Stuttgart / Klassische Philharmonie Stuttgart
Frieder Bernius 83.215 (2 SACDs, in preparation)

Elijah, Mendelssohn’s second great oratorio, was composed just one year before his premature death. This excitingly dramatic work also expresses a fervent belief in God, a belief which in the 19th century was no longer self-evident. Justifiedly, Elijah is regarded as a milestone in Mendelssohn’s compositional output and as a high point in the oratorio literature of the 19th century.

Organ sonatas op. 65
Kay Johannsen, organ
83.167

“Johannsen’s technical mastery and formidable accomplishment on the organ ... is evident throughout this recital, and his imaginative registrations, which never obscure the principal thematic interest, keep you listening.”
